RITMA

Special Annual Collectible Edition 2026

MIMOSA

The Ritma™ special collectible edition collection is inspired by the minimalist movement of the 1960's and 70's, with it's clean lines and straightforward designs. Machined to perfection using a mixture of steel and aluminum, the Ritma™ boasts a streamlined design from magnetic cap top to back post, perfect for those who prefer a well balanced and heavyweight pen. Each aluminum barrel is anodized and treated with a matte finish, resulting in a muted pop of mimosa yellow color that is soft to the touch and beautifully accentuated with polished gunmetal accents. The clip is designed to match the straight lines of the body style with an extra flair, the center cut is in an elongated oval shape for ease of use. An exciting feature of this minimalist pen is the magnetic cap and posting, so secure and perfectly designed for the pen it creates a seal. No need to twist off, gently pull and enjoy the striking pop-action sound of the seal opening, then post to the back to experience the secure magnetic seal there as well.
